OFFICIAL USER & OPERATIONS MANUAL (ENGLISH EDITION) • SAKAR & SVN

GST CONTROL ERP — Step-by-Step User & Report Guide

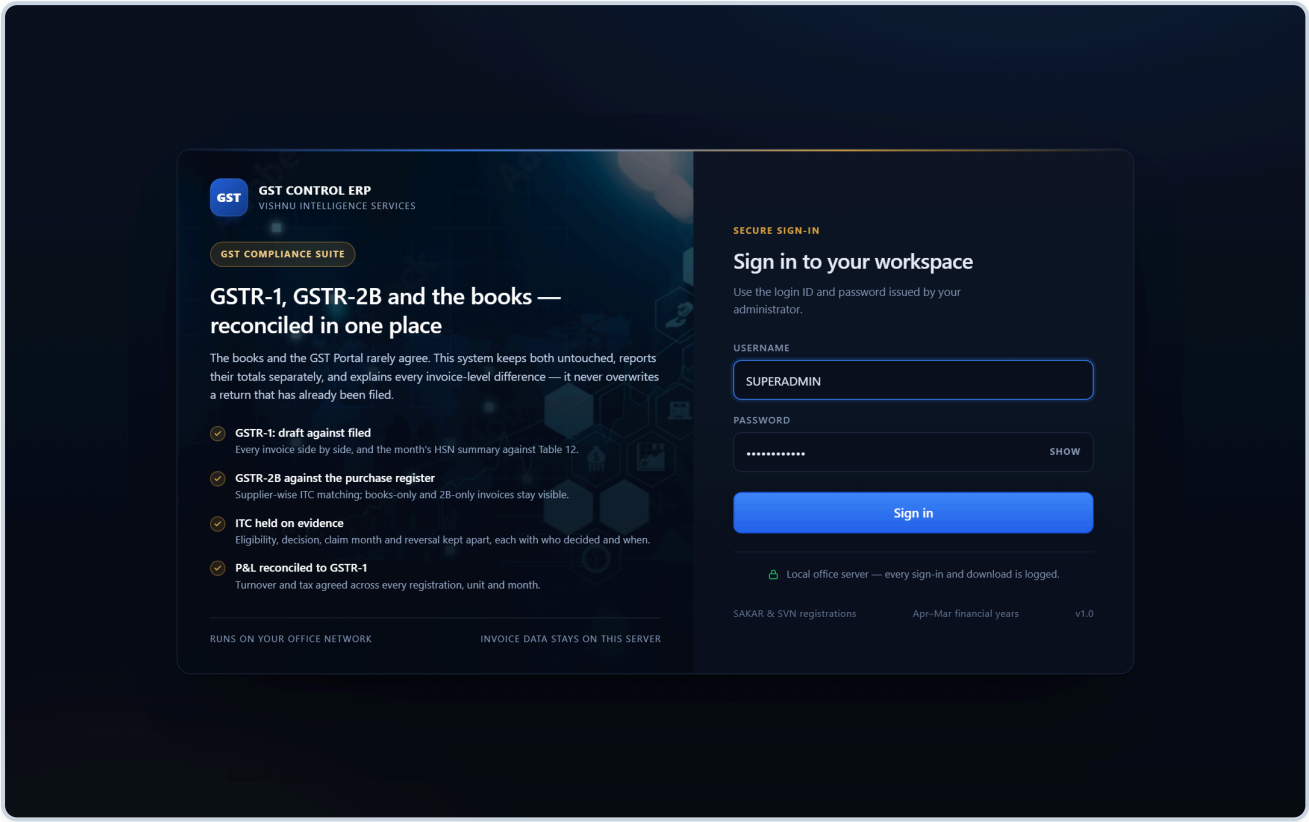

Complete Module-by-Module Visual Manual with Live Software Screenshots: Outward GSTR-1 Match with Books (Bill-to-Bill), Inward GSTR-2B / GSTR-3B Input Credit Match with Books (Bill-to-Bill), HSN Table 12, P&L vs GSTR-1, and GSTR-9 / 9C Annual Compliance.

Table of Contents — Module-by-Module Workflow

1. Screen 1: Secure Sign-In & Role-Based Workspace Access
2. Screen 2: Compliance Dashboard & Top Context Bar
3. Screen 3: Books / Sales Register Upload & 1-Click Import
4. Screen 4: Portal Pre-Filled GSTR-1 (.json / .xlsx) Import
5. Screen 5: GSTR-1 Reconciliation (Bill-to-Bill Outward Sales Match)
6. Screen 6: Purchase vs GSTR-2B & GSTR-3B Table 4 Input Credit Scorecard
7. Screen 7: Bill-to-Bill Inline Correction, Probable 2B Match & 3B Decision
8. Screen 8: HSN Summary — GSTR-1 Table 12 (Books vs Portal)
9. Screen 9: P&L vs GSTR-1 Company-Level Head-Wise Reconciliation
10. Screen 10: GSTR-9 Annual Return, GSTR-9C Audit & IMS Action Sheet
11. Screen 11: Reports Hub & Master Excel Workbook Downloads
12. Screen 12: Masters — Companies, Units, GSTINs & User Permissions

1. Secure Sign-In Screen (Workspace Login)

STEP 1 • LOGIN

What Is Displayed on This Screen?

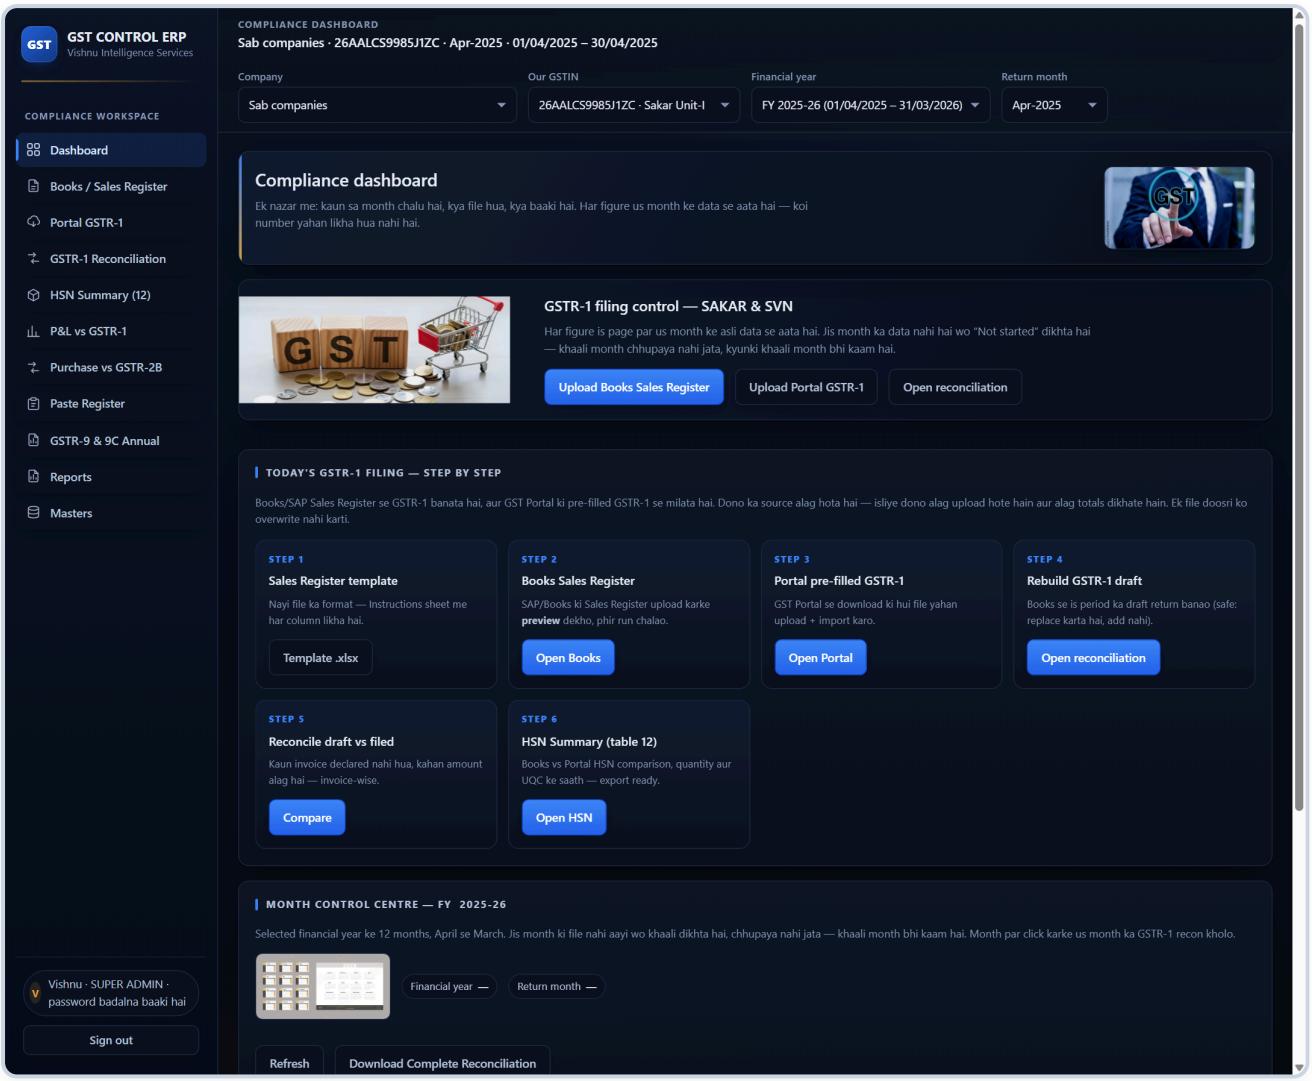

- **Left Brand Panel:** Registered legal entities (`SAKAR ELECTRICALS & ELECTRONICS PVT LTD` & `SVN OPTO ELECTRONICS PVT LTD`), active GSTIN units, and compliance scope overview.
- **Right Sign-In Card:** Secure Username and Password authentication form. Every login, edit, and export is recorded in the server's immutable audit log.

Step-by-Step Instructions

1. Start the server using `npm run serve` and open `http://localhost:4321` in your browser.
2. Enter your assigned **Username** (e.g., `SUPERADMIN` or `USER-1`).
3. Enter your **Password** (click `Show` to verify characters if needed).
4. Click **Sign in** to enter the GST Control Platform.

2. Compliance Dashboard & Top Context Bar

STEP 2 • CONTROL CENTRE

Top Context Bar (Global Workspace Filters)

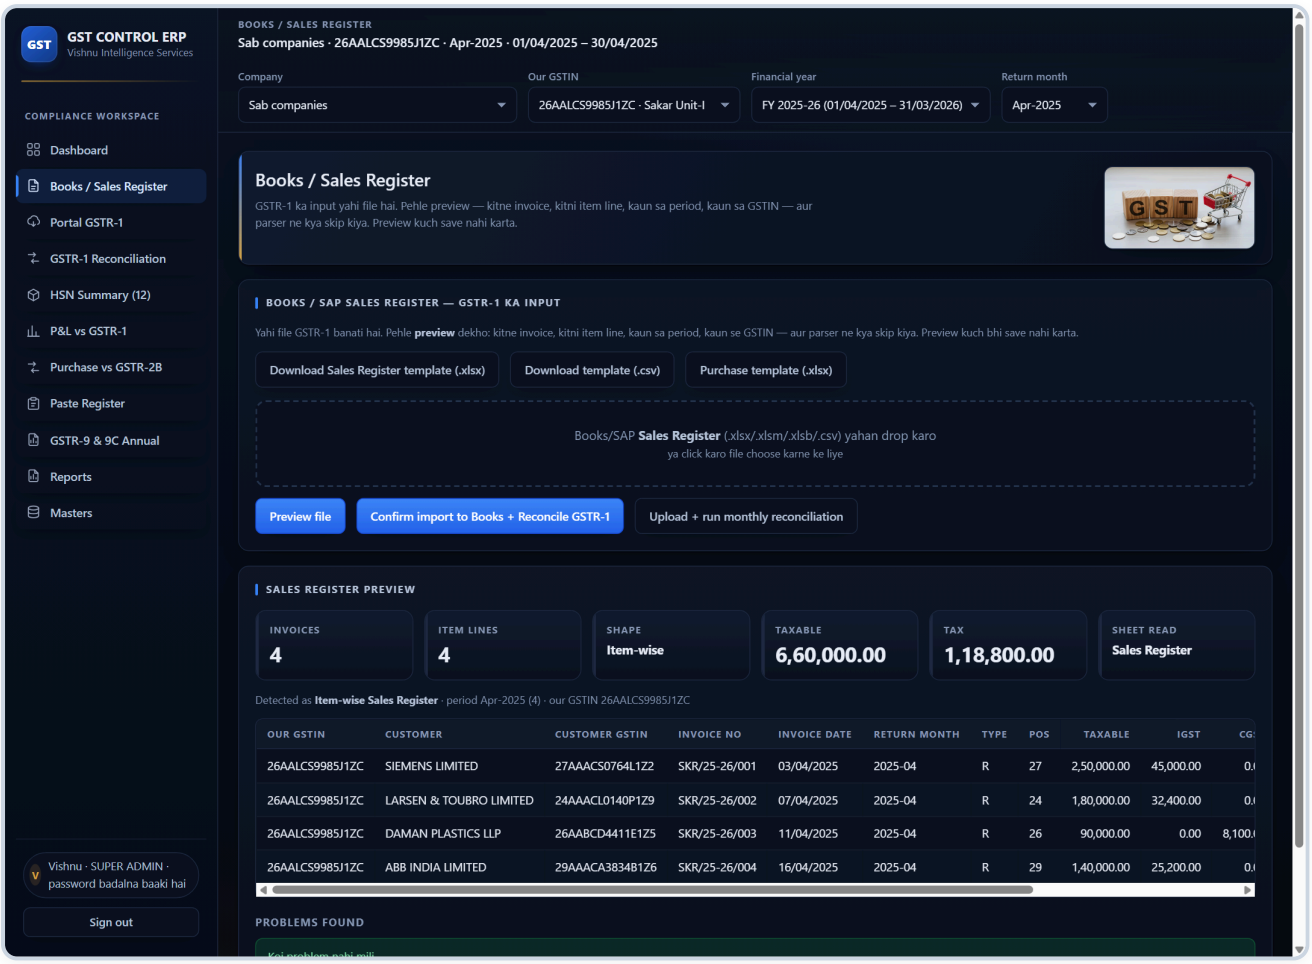

- **Company:** Filter by legal entity (SAKAR or SVN).
- **Our GSTIN:** Select the specific State/Unit GSTIN (e.g., `26AALCS9985J1ZC`).
- **Financial Year:** Choose the April–March financial year (e.g., `2025-26`).
- **Return Month:** Select the active tax period (e.g., `Apr-2025`). All modules automatically synchronize to this selected GSTIN and month.

Dashboard KPIs & Month Control Strip

- **Executive KPI Cards:** Real-time summary of FY Taxable Value, Books Invoice Lines, GSTR-1 Drafts, Portal Docs, Matched ITC, Missing in 2B, Mismatches, and Blocked ITC.
- **12-Month Compliance Strip:** Displays April through March status cards. Click any month card to jump directly to that period.
- **Download Complete Reconciliation:** 1-click button to export the full multi-sheet Excel audit workbook.

3. Priority 1 (Part A): Books / Sales Register Upload & Import

OUTWARD BILL-TO-BILL • STEP 1

Step-by-Step Instructions

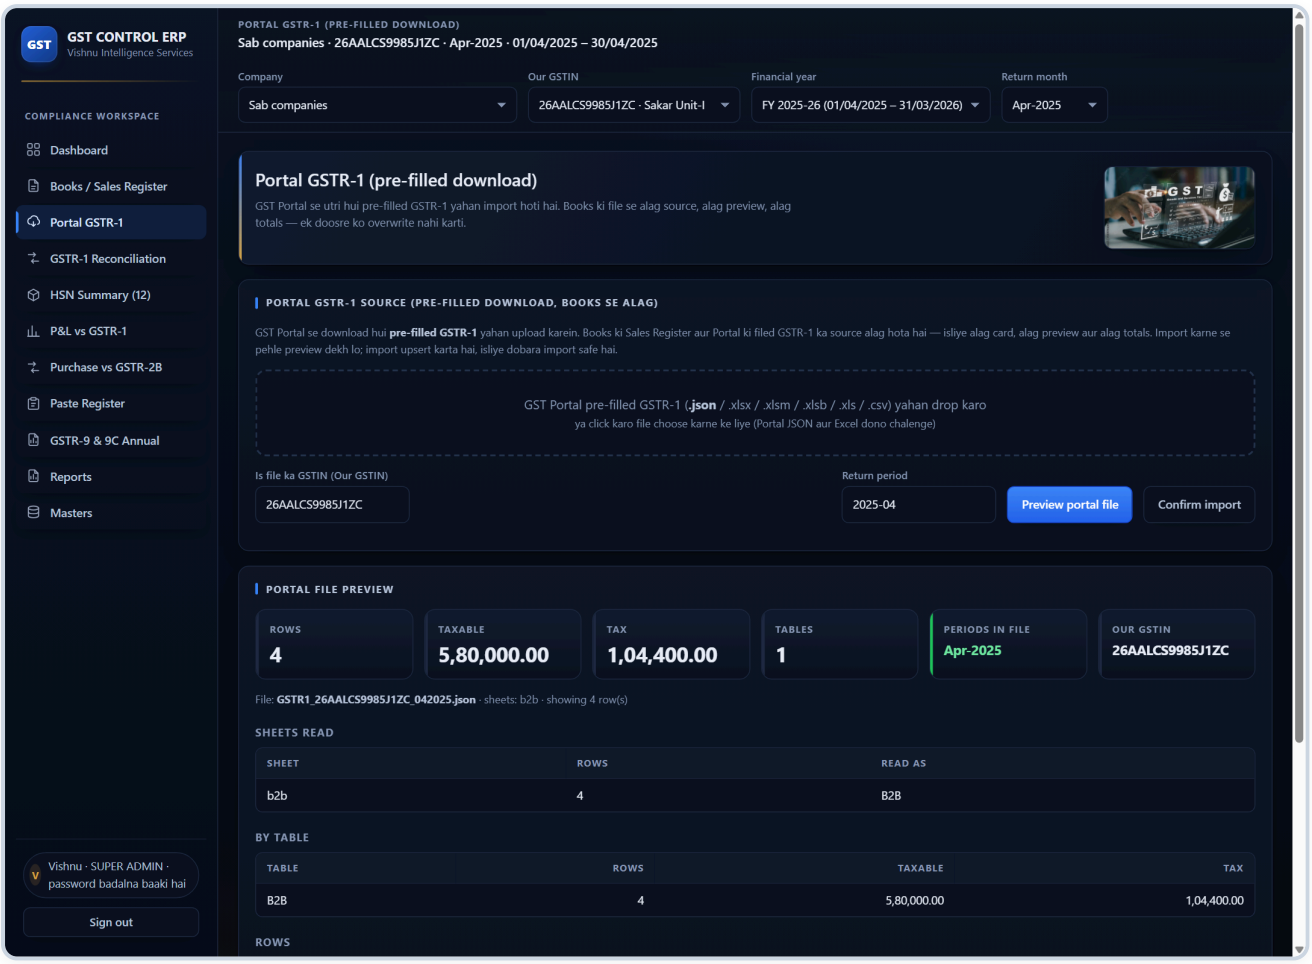

1. Click **Books / Sales Register** in the left navigation sidebar.
2. Select or drag-and-drop your ERP Sales Register file (`.xlsx` or `.csv` from Tally, SAP, Busy, etc.).
3. Click **Preview file** to inspect invoice count, item lines, taxable totals, tax split, and pre-import validation checks.
4. Click **Confirm import to Books + Reconcile GSTR-1**.

What Happens Automatically?

- Sales invoices and line items are persisted in PostgreSQL (`sales_invoices` & `sales_invoice_items`) without duplicating rows on re-import.
- The engine automatically classifies invoices into GSTR-1 sections: **B2B, B2CL, B2CS, CDNR, CDNUR, EXP, and Table 8 Nil/Exempt**.
- If Portal GSTR-1 data is already loaded for the period, Bill-to-Bill Outward Reconciliation runs immediately.

4. Priority 1 (Part B): Portal Pre-Filled GSTR-1 (.json / .xlsx) Import

OUTWARD BILL-TO-BILL • STEP 2

Step-by-Step Instructions

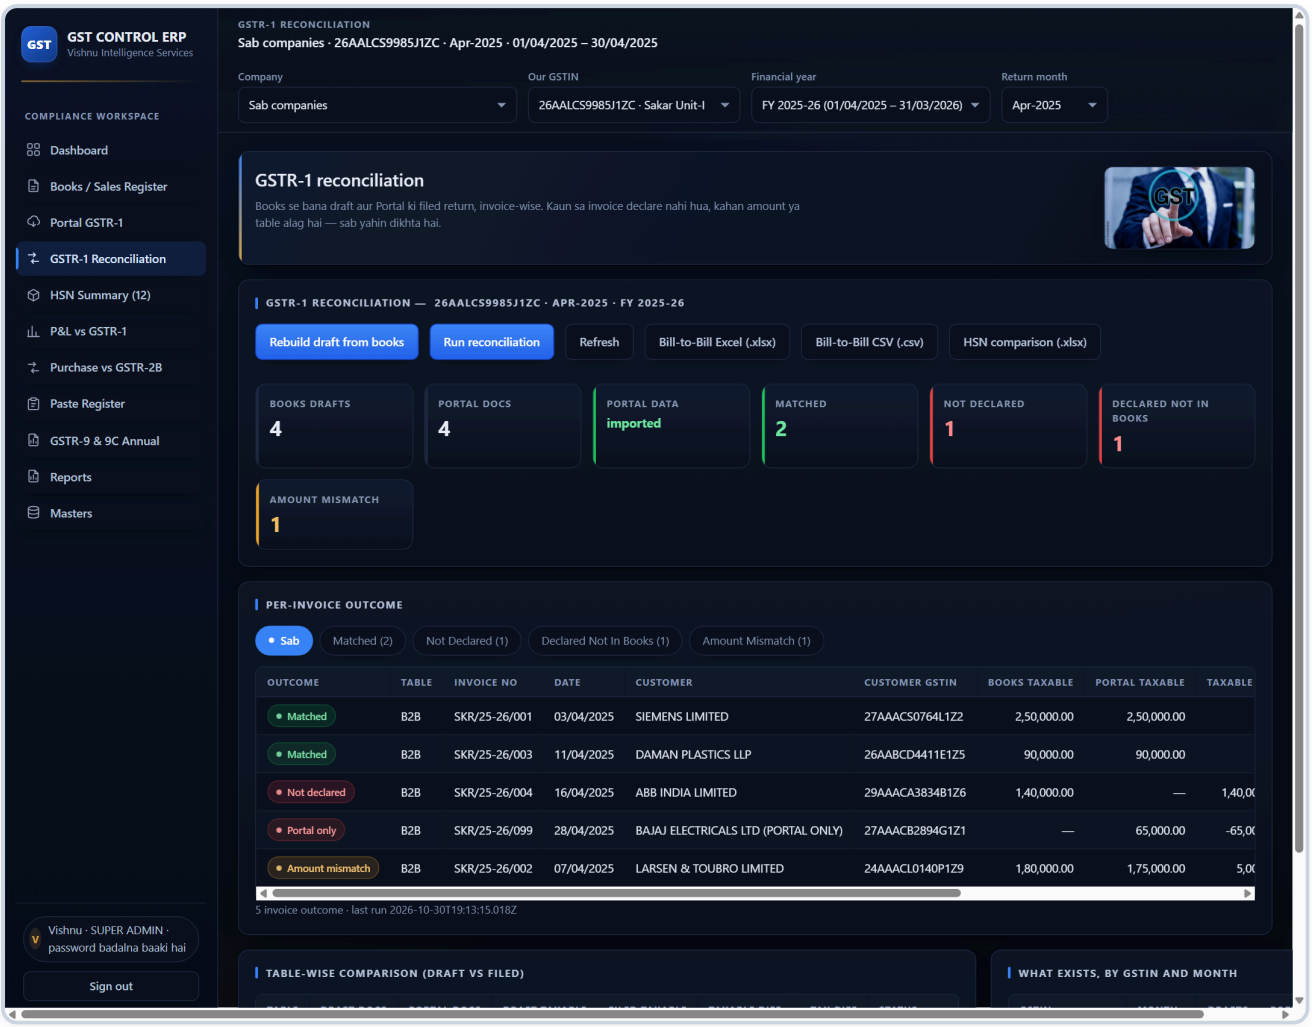

1. Click **Portal GSTR-1** in the left navigation sidebar.
2. Select the **GSTR-1 `.json` file** or **`.xlsx` / `.csv` summary file** downloaded from the GST Portal.
3. Click **Preview portal file** to verify the detected GSTIN, return period, and table-wise (B2B, B2CS, CDNR, HSN) document counts.
4. Click **Confirm import** to save Portal records and trigger automatic Bill-to-Bill matching against your Books Sales Register.

Key Highlights

- **Native JSON & Excel Support:** Directly parses official GST Portal GSTR-1 JSON archives as well as Excel workbooks.
- **Idempotent Upsert:** Re-uploading an updated Portal file cleanly updates existing records without creating duplicates.

5. Priority 1 (Part C): GSTR-1 Match with Books (Bill-to-Bill Reconciliation & Export)

OUTWARD BILL-TO-BILL • STEP 3

Understanding Bill-to-Bill Match Statuses

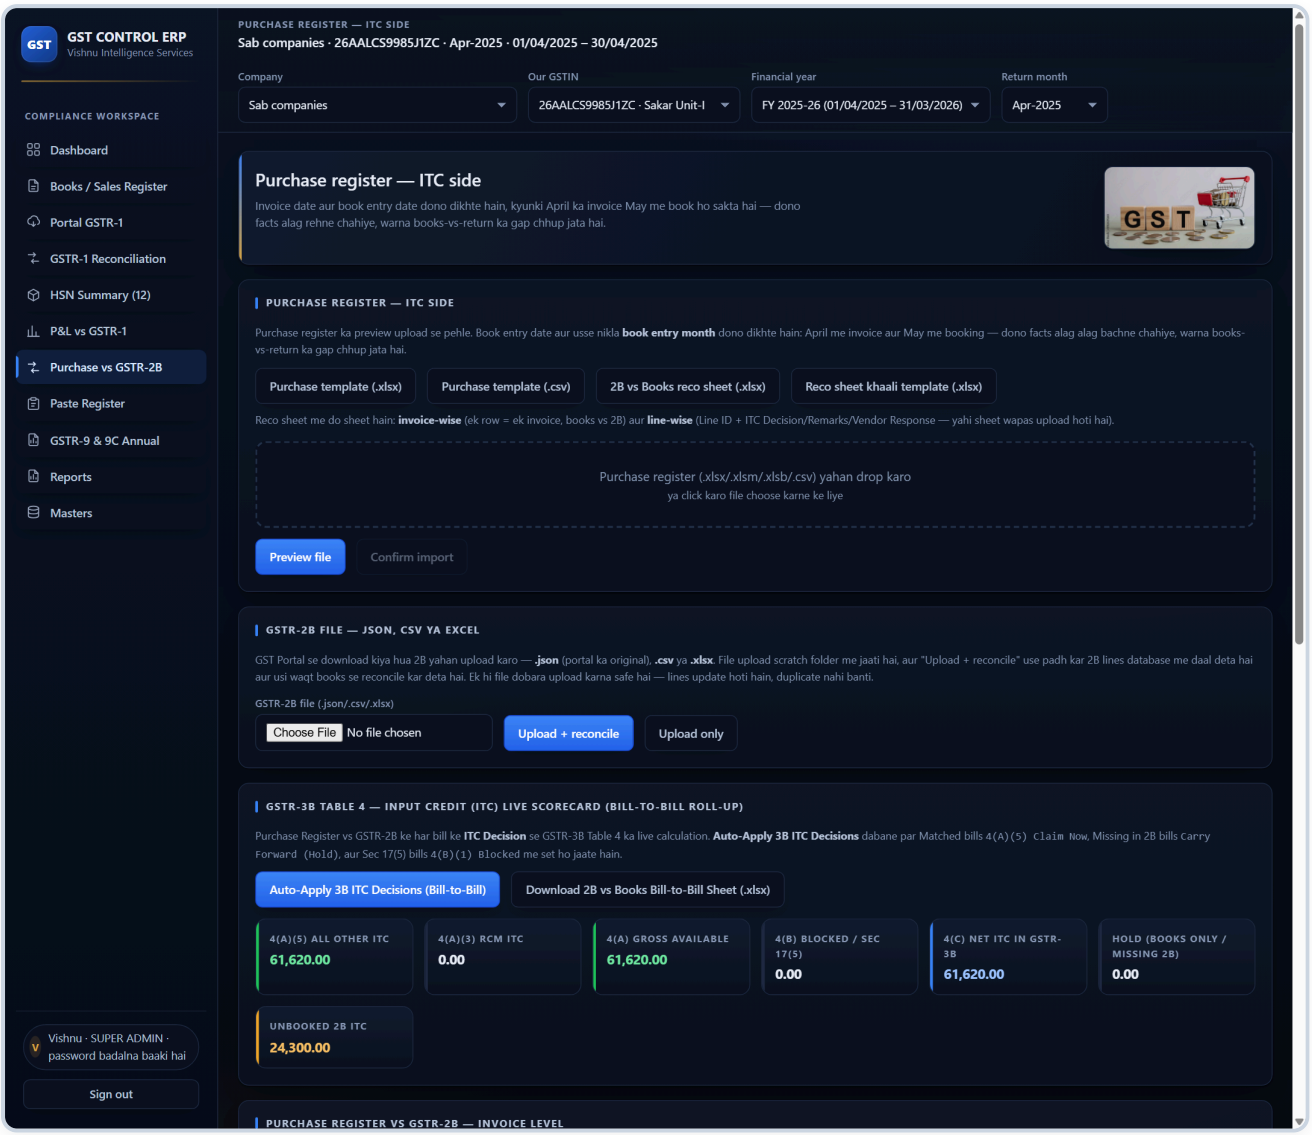

- **Matched:** Invoice Number, Customer GSTIN, Taxable Value, and Tax (IGST/CGST/SGST) match between Books and Portal GSTR-1.
- **Not declared (Books Only):** Invoice exists in Books Sales Register but is missing on the GST Portal — must be added before filing GSTR-1.
- **Portal only:** Invoice is present on the GST Portal (e.g., from e-Invoice auto-population) but missing in Books.
- **Amount mismatch:** Invoice exists on both sides, but Taxable Value or Tax differs beyond tolerance.

Viewing & Exporting Reports

- **Quick Filter Pills:** Click `All`, `Matched`, `Not declared`, `Portal only`, or `Amount mismatch` to isolate exceptions.
- **Bill-to-Bill Excel (.xlsx):** Downloads a 3-sheet workbook containing *Section Summary*, *Bill-to-Bill GSTR1 vs Books* (with side-by-side Books vs Portal Taxable, IGST, CGST, SGST, Tax Diff, and Suggested Fix), and *HSN Summary*.
- **Accept Portal → Books:** 1-click button to backfill missing Portal-only invoices into Books.

6. Priority 2 (Part A): GSTR-2B / 3B Input Credit Match with Books (Bill-to-Bill)

INWARD ITC BILL-TO-BILL • STEP 1 & 2

Step-by-Step Workflow

1. **Card 1 (Purchase Register):** Select your ERP Purchase Register file → click **Preview file** → click **Confirm import**.
2. **Card 2 (Portal GSTR-2B):** Select the GSTR-2B `.json`, `.xlsx`, or `.csv` file → click **Upload + reconcile** to import and run Bill-to-Bill matching.
3. **Card 3 (GSTR-3B Table 4 Scorecard):** Click **Auto-Apply 3B ITC Decisions (Bill-to-Bill)** to automatically assign 3B Table 4 buckets to every purchase bill.

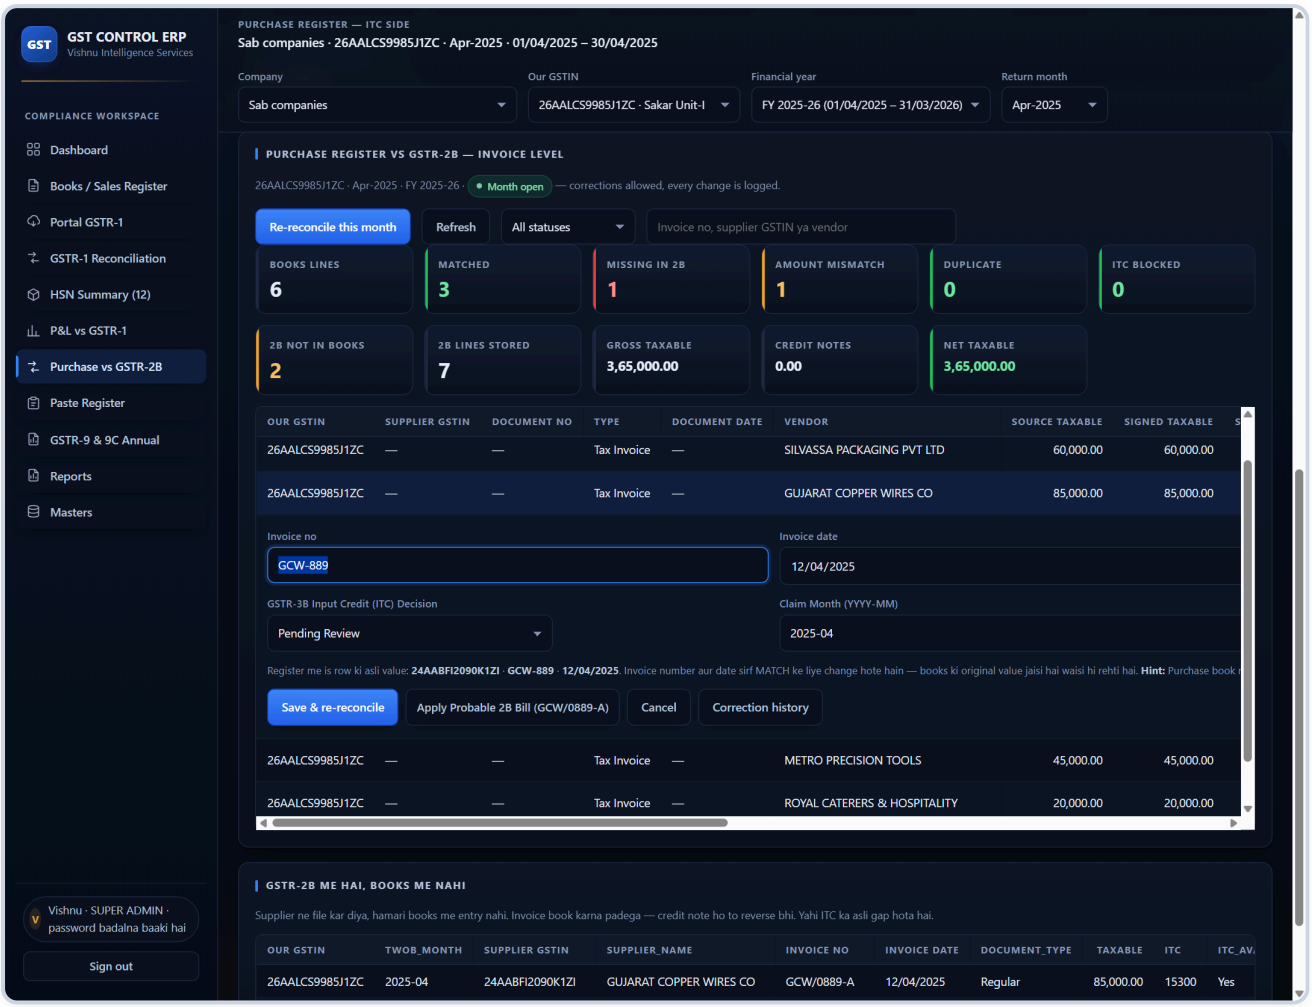

Reading the Live GSTR-3B Table 4 Scorecard

- `4(A)(5) All Other ITC` : Regular eligible matched bills claimed in the current return month.
- `4(A)(3) RCM ITC` : Inward supplies liable to Reverse Charge.
- `4(B) Blocked / Sec 17(5)` : Ineligible ITC (e.g., motor vehicles, catering, personal expenses).
- `4(C) Net ITC in GSTR-3B` : Final Net Eligible Input Tax Credit flowing into GSTR-3B Table 4C.
- `Hold (Books Only)` : Bills missing in GSTR-2B held back for future claim once the

supplier files.

7. Priority 2 (Part B): Inline Bill-to-Bill Editor, Probable 2B Match & 3B Bucket

INWARD ITC BILL-TO-BILL • STEP 3

How Probable 2B Bill Matching Works

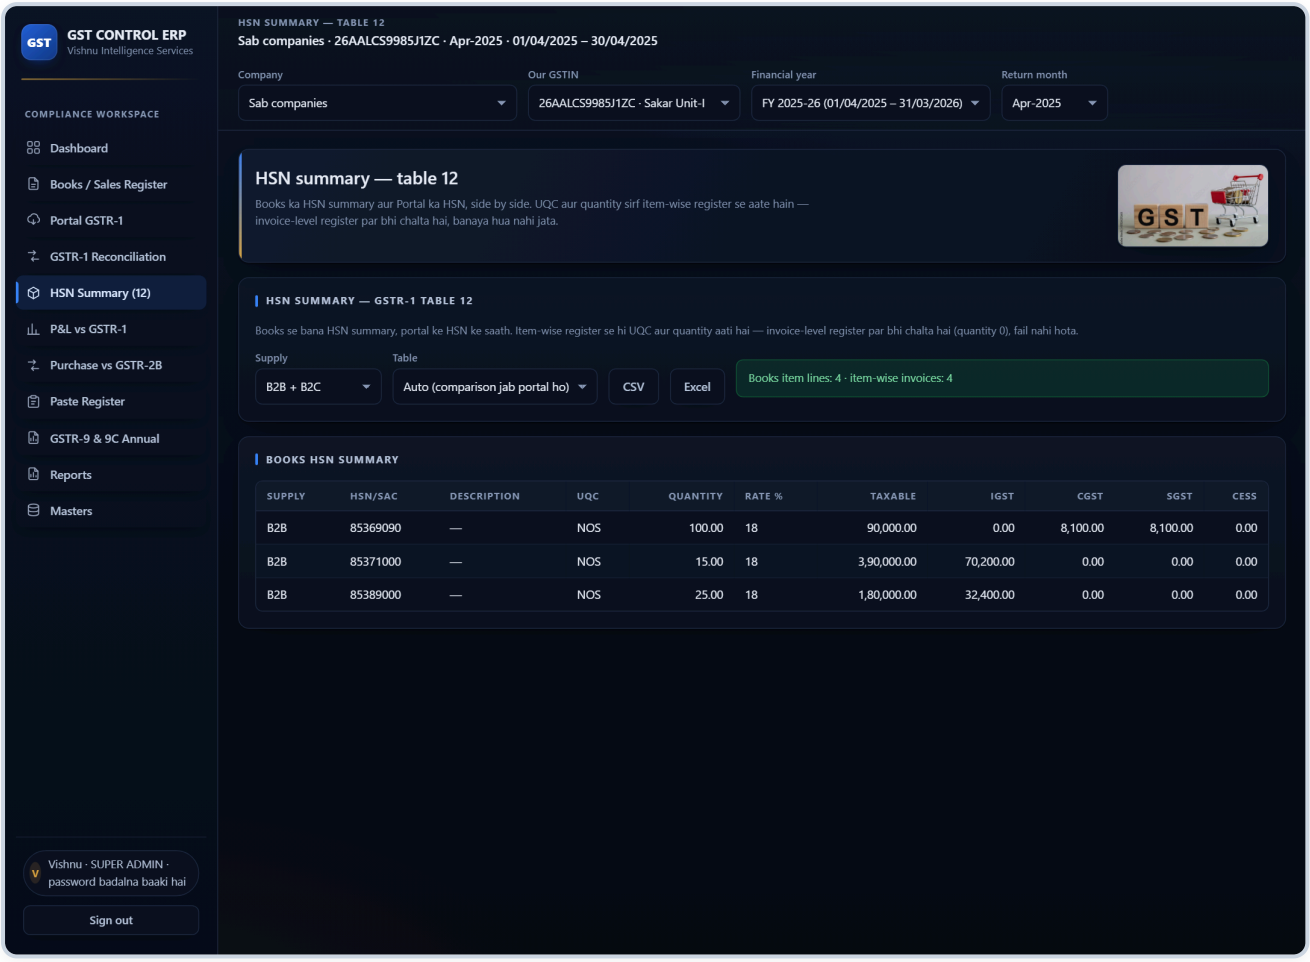

- When a book entry has a slightly different invoice format (e.g., `GCW-889` in Books vs `GCW/0889-A` in GSTR-2B) for the same Supplier GSTIN and similar amount, the engine surfaces a yellow pill in the **Probable 2B Bill** column.
- Click **Edit** on that row → click **Apply Probable 2B Bill (GCW/0889-A)** → click **Save & re-reconcile**. The invoice immediately links and turns **Matched**!

Inline Bill-to-Bill Controls

- **Field Corrections:** Edit Invoice No, Date, Supplier GSTIN, or Our GSTIN inline while preserving the original imported value in the audit log.
- **GSTR-3B Input Credit Decision:** Assign `CLAIM_NOW`, `CARRY_FORWARD (Hold)`, `INELIGIBLE (Sec 17(5))`, or `DO_NOT_CLAIM`.
- **GSTR-3B Table 4 Bucket:** Route the bill to `4(A)(5)`, `4(A)(3) RCM`, `4(B)(1)`, or `4(B)(2)`.
- **Log Button:** View the full user and timestamp history for every change on that bill.

8. HSN Summary — GSTR-1 Table 12 (Books vs Portal Comparison)

MODULE 3 • HSN TABLE 12

What Is Displayed on This Screen?

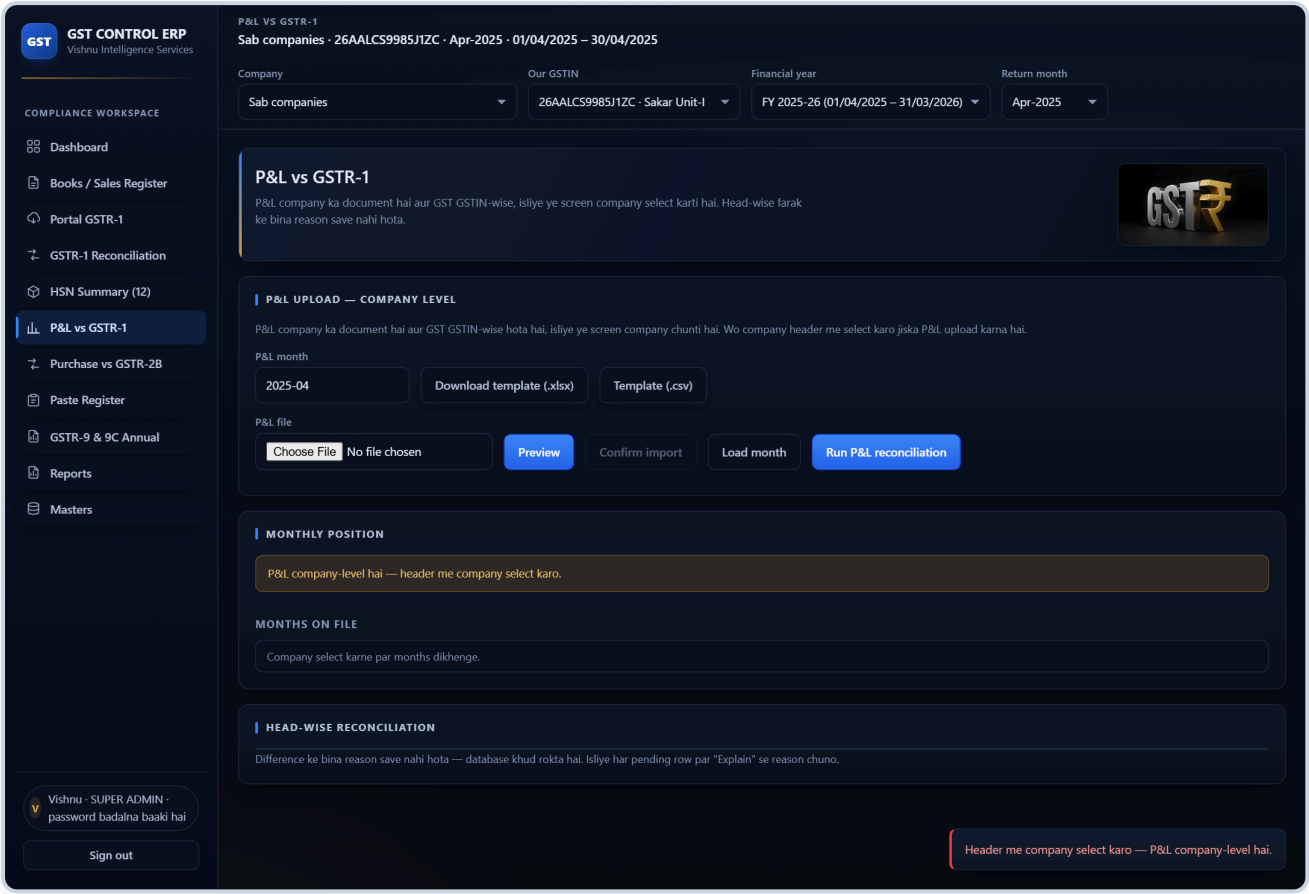

- **Books HSN Summary:** Aggregated from item-wise sales lines by HSN code, Description, UQC, Quantity, Tax Rate%, Taxable Value, and Tax amounts.
- **Books vs Portal Comparison:** Side-by-side Table 12 variance check highlighting `Matched`, `Differs`, `Books only`, and `Portal only` HSN lines.

How to Filter & Export

- **Supply Type Filter:** Toggle between combined `B2B + B2C`, `B2B Only` (Table 12A), or `B2C Only` (Table 12B).
- Click **Excel** or **CSV** to download the GSTR-1 Table 12 reconciliation schedule.

9. P&L vs GSTR-1 — Company-Level Revenue Reconciliation

MODULE 4 • P&L CONTROL

Step-by-Step Instructions

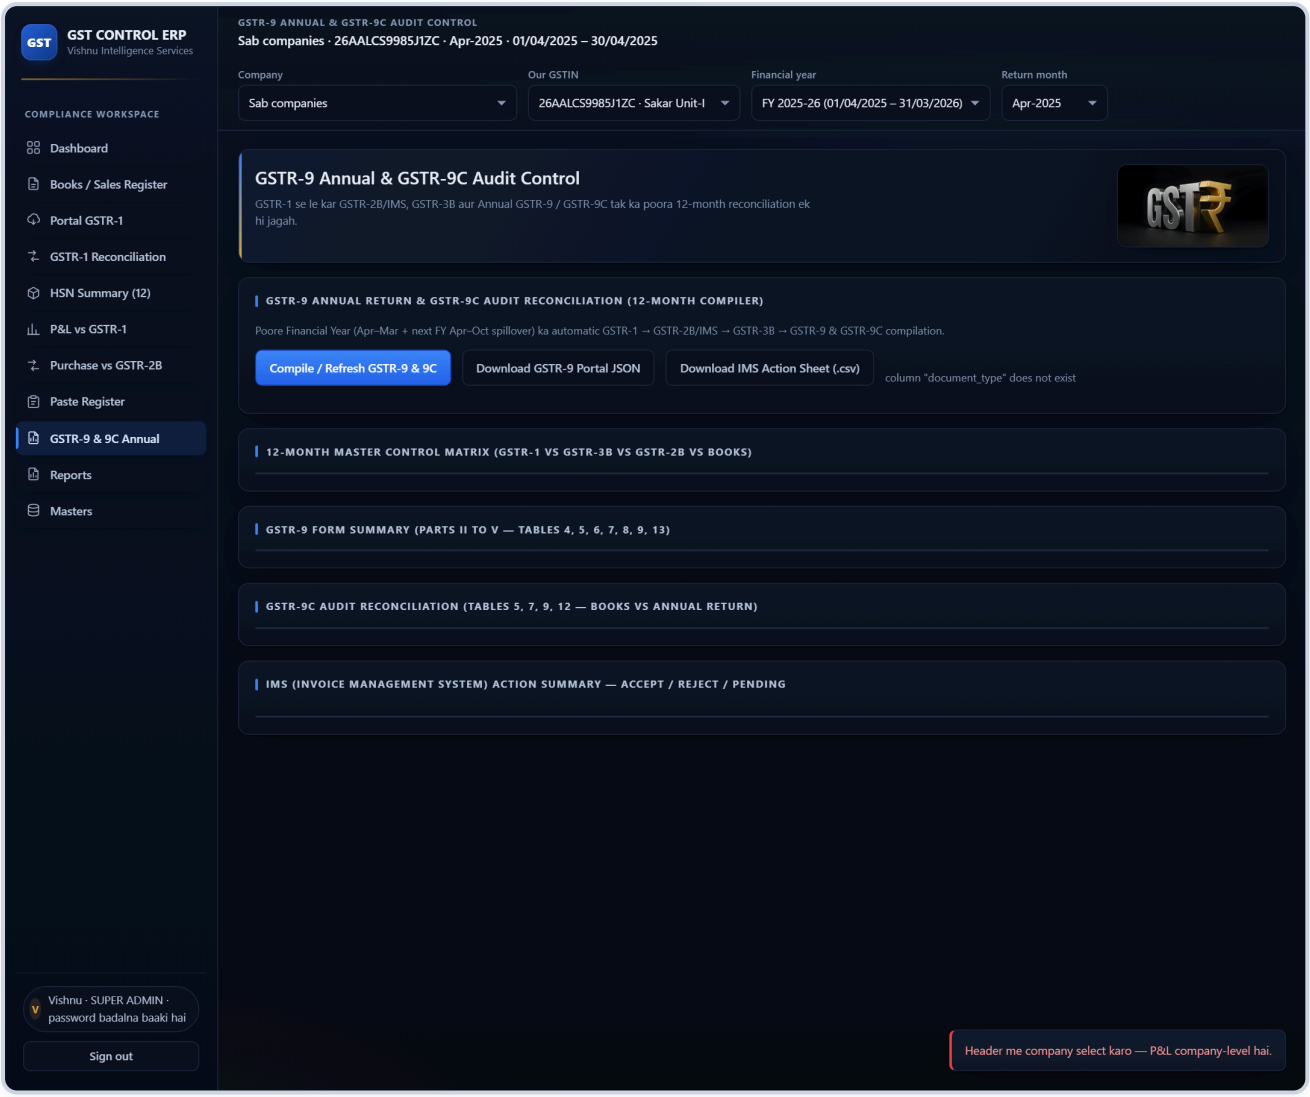

1. Click **Download template (.xlsx)** to get the standard P&L revenue upload sheet.
2. Upload your monthly Trial Balance / P&L revenue schedule → click **Preview** → click **Confirm import**.
3. Click **Run P&L reconciliation** to compare GL revenue heads against all GSTINs' GSTR-1 outward supplies.

Mandatory Variance Explanation Control

- For any revenue head showing a difference between P&L and GSTR-1, click **Explain** to record a structured reason code (e.g., `TIMING`, `NON_GST_INCOME`, `EXEMPT`) and audit remarks for GSTR-9C Table 5 readiness.

10. GSTR-9 Annual Return, GSTR-9C Audit & IMS Action Sheet

MODULE 5 • ANNUAL GSTR-9 & 9C

Four Integrated Annual Compliance Controls

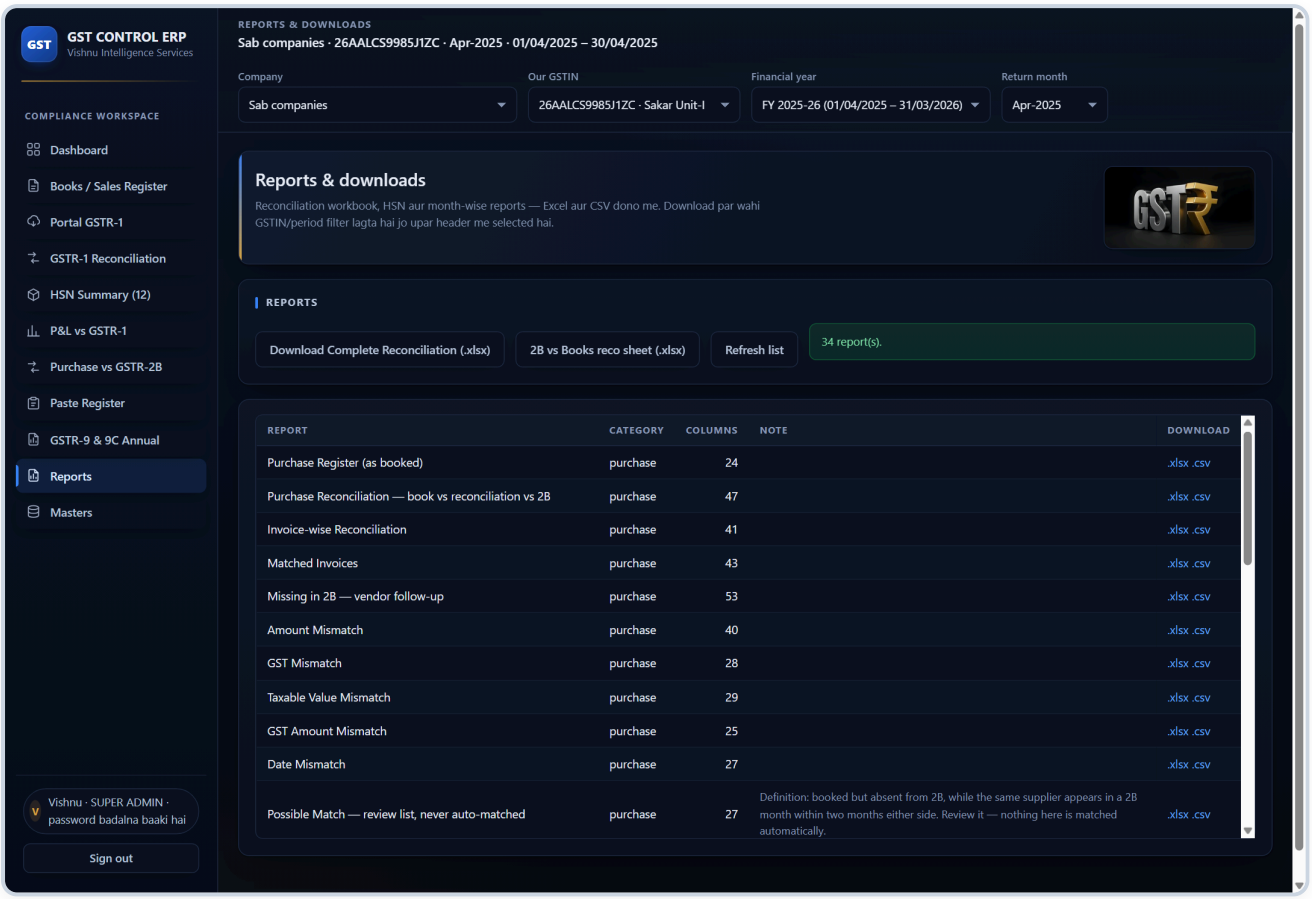

- **12-Month Master Control Matrix:** April–March month-by-month grid showing GSTR-1, GSTR-3B, Books ITC, 2B ITC, 3B Net ITC, RCM, and Cash/ITC utilization.
- **GSTR-9 Annual Return Summary:** Complete computation of Tables 4, 5, 6, 7, 8 (8A vs 8B/8C/8D), 9, 10–13, 17, and 18.
- **GSTR-9C Audit Reconciliation:** Tables 5, 7, 9, and 12 comparing audited financials against annual GST returns.
- **IMS Action Table:** Invoice-level `ACCEPT`, `REJECT`, or `PENDING` recommendations for the GST Portal Invoice Management System.

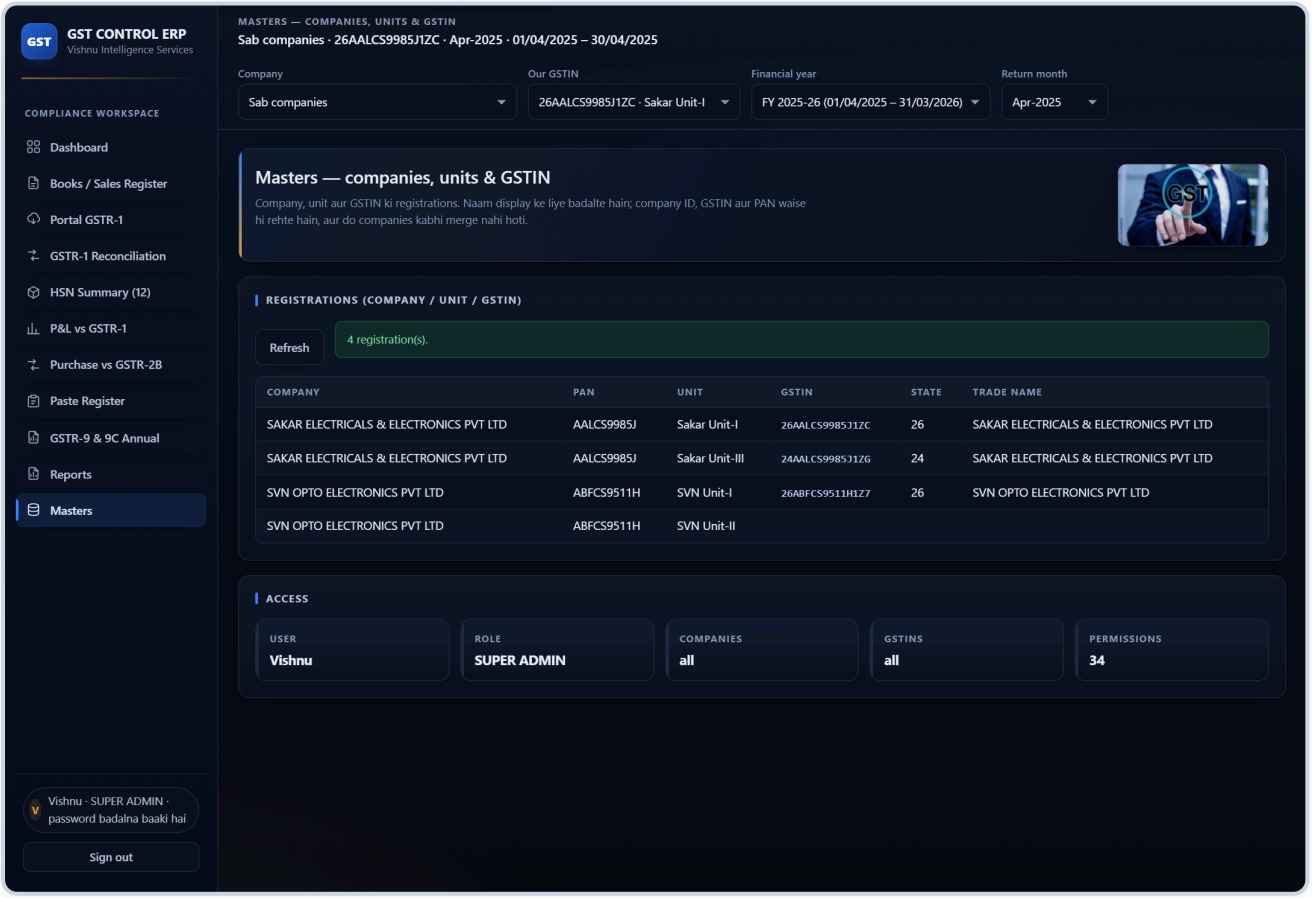

Exports & Portal Filing

- **Compile / Refresh GSTR-9 & 9C:** Recomputes the full financial year directly from live database transactions.
- **Download GSTR-9 Portal JSON:** Exports the official GST Portal-compliant GSTR-9 JSON payload.
- **Download IMS Action Sheet (.csv):** Exports the vendor-wise IMS decision sheet for portal upload.

11. Reports Hub & 12. Masters (Registrations & Access)

MODULE 6 & 7 • REPORTS & MASTERS

Report Name	Where to Download	Purpose & Contents
1. GSTR-1 vs Books Bill-to-Bill (.xlsx / .csv)	`GSTR-1 Reconciliation` → **Bill-to-Bill Excel (.xlsx)**	Invoice-by-invoice outward sales comparison showing Books vs Portal Taxable, IGST, CGST, SGST, Tax Variance, and Action Required.
2. 2B vs Books Bill-to-Bill Reco Sheet (.xlsx)	`Purchase vs GSTR-2B` or `Reports` → **2B vs Books reco sheet (.xlsx)**	Sheet 1: Invoice-level Books vs GSTR-2B & 3B ITC status. Sheet 2: Round-trip editable working sheet that can be modified in Excel and re-uploaded.
3. Complete Reconciliation (.xlsx)	`Dashboard` or `Reports` → **Download Complete Reconciliation (.xlsx)**	Master multi-tab CA & Audit workbook containing Executive Summary, Matched, Mismatch, Missing in 2B, 2B Only, GSTR-3B, GSTR-1, HSN, IMS, and GSTR-9/9C.
4. Category Exception Reports (.xlsx / .csv)	`Reports` tab → Click `.xlsx` or `.csv` next to any report row	Dedicated schedules for Supplier Follow-up List, Missing in 2B, Missing in Books, Amount Mismatch, Blocked Sec 17(5) ITC, Duplicate Invoices, and E-Invoice/E-Way Bill checks.
